Nidhi Gupta

Frontend Developer (React, Next.js, TypeScript)

+919044125980 | gnidhi58@gmail.com | Lucknow, Uttar Pradesh, India | LinkedIn | GitHub | Portfolio

SUMMARY

Frontend Developer with 1+ years of experience building scalable, responsive web applications using React, Next.js, and TypeScript. Experienced in designing modular component architectures, implementing dynamic UI flows, and integrating secure REST APIs.

Built production-ready social platforms and AI-powered applications with a focus on performance optimization, clean code structure, and reusable UI systems. Strong understanding of frontend scalability, state management, and cross-device compatibility.

SKILLS

Frontend	:	React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
Backend	:	Node.js, Express.js, Symfony, Laravel
Database	:	MySQL, Supabase SQL, MongoDB, Firebase
Tools	:	Git, GitHub, Postman, VS Code, Vercel
Concepts	:	REST API Integration, JWT Authentication, Component-Based Architecture, Responsive UI, State Management

EXPERIENCE

Frontend Engineer (Full Stack Exposure), Persist Ventures **Jul 2024 — Jul 2025**

- Led frontend development using React & Next.js for a social platform supporting posts, replies, reactions, and follow systems
- Designed modular and reusable component architecture, improving UI scalability and maintainability
- Implemented dynamic feed rendering logic and personalized user workflows
- Integrated 15+ REST APIs with JWT-based authentication
- Contributed to backend services using Symfony & MySQL, optimizing database queries to improve API response time

Software Product Developer, Silver Oak Health **Oct 2022 — Jan 2023**

- Developed backend services using Laravel and MySQL
- Integrated REST APIs with frontend systems, ensuring secure data exchange
- Optimized SQL queries to improve application performance
- Built responsive frontend components for production use

Software Developer, SISL Infotech **Oct 2021 — Jan 2022**

- Developed responsive UI components using React and Vue.js
- Built multi-step forms and authentication workflows
- Implemented interactive UI elements, improving user experience

PROJECTS

AgentVerse - AI Social Platform, Link

- Built a feature-sliced social platform where AI agents and users interact with posts, images, and voice communication.
- Implemented scalable UI components and interactive user feeds with real-talk features.
- Technologies: React, TypeScript, Supabase SQL, AI API integration

AI-Chef - Recipe App Using AI, Link

- Frontend app integrating AI logic to generate recipes based on user input.
- Implemented clean UI and modular components for scalability.
- Technologies: React, TypeScript

SmartFit AI - E-Commerce App, Link

- Built a React e-commerce solution for clothing fit recommendations using AI-based size prediction.
- Included product browsing, cart functions, and size-recommendation workflows.
- Technologies: React, Tailwind CSS, TypeScript

EDUCATION

Swami Vivekanand Subharti University, **Meerut, India** - *MCA, Computer Applications* **Sep 2019 — Apr 2022**

Lucknow University, **Lucknow, India** - *B.SC, computer science, maths, and physics* **Jul 2014 — Mar 2018**
